

## Cost Engineering

Adrian Predoi  
LogiKal (UK)

The Cost Engineering presentation will address the following topics:

- Background and Short History on the Cost Engineering discipline;
- Investment Appraisal – how we can select projects based on economic analysis indicators;
- Cost Estimating – how we can estimate costs in a project;
- Budget Development – what is the budget development process and how is it linked to risk management;
- Cost Controlling – how do we measure our performance through the means of Earned Value Analysis;
- Cost Reporting – how do we report costs to various stakeholder levels.
